Infographic: Q3 property management service performance

AI Sandbox Prompt Vault

✕ Without a proper prompt

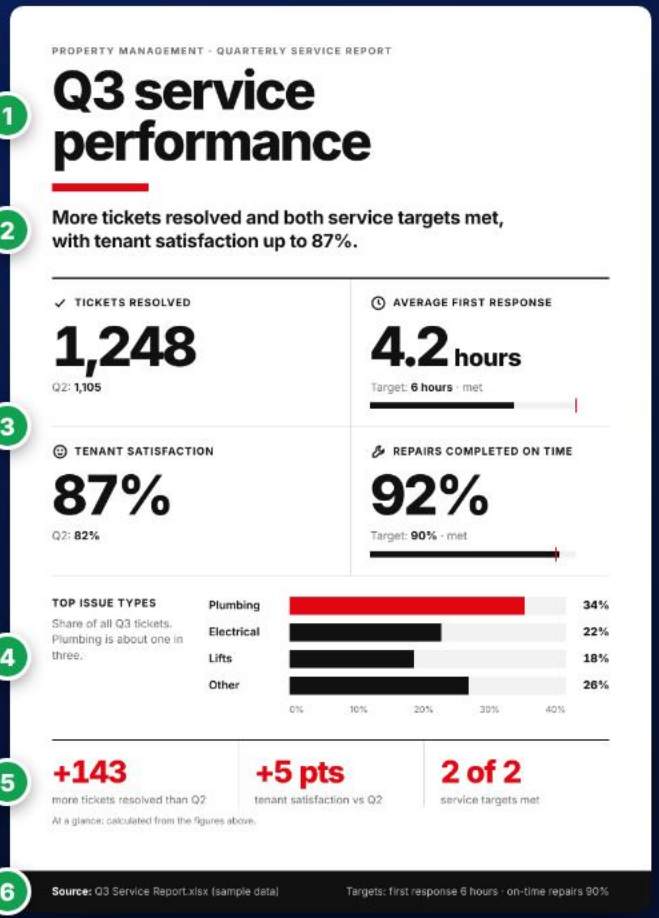

```
"Make an infographic about our property management performance."
```

1. Generic title, no key message
2. Invented figures: 98%, 500+, #1. No data was given, so the AI made them up
3. A 72-word paragraph nobody will read
4. 3D pie chart that adds up to 115%
5. No source, no takeaway, 3 fonts and too many colours

✓ With the Prompt Vault

Role Information Designer · **Audience** Top Management · **Tone** Data-driven · **Style** Swiss Design · **Format** A4 portrait · **Data** Q3 Service Report.xlsx · **+ Testing & Quality**

1. Clear title for top management
2. The key message comes first, in one line
3. Real figures from your file, with targets
4. Honest chart on a true 0–40% scale
5. Only calculated facts, clearly labelled
6. Source cited, one typeface, one style

Illustrative example with sample data. Left: typical problems when a vague prompt gives the AI nothing to work with. Right: built by following the full Prompt Vault prompt (Infographic › Create Infographic).

Same request. Two prompts.

Slides: Q3 service review for top management

AI Sandbox Prompt Vault

✕ Without a proper prompt

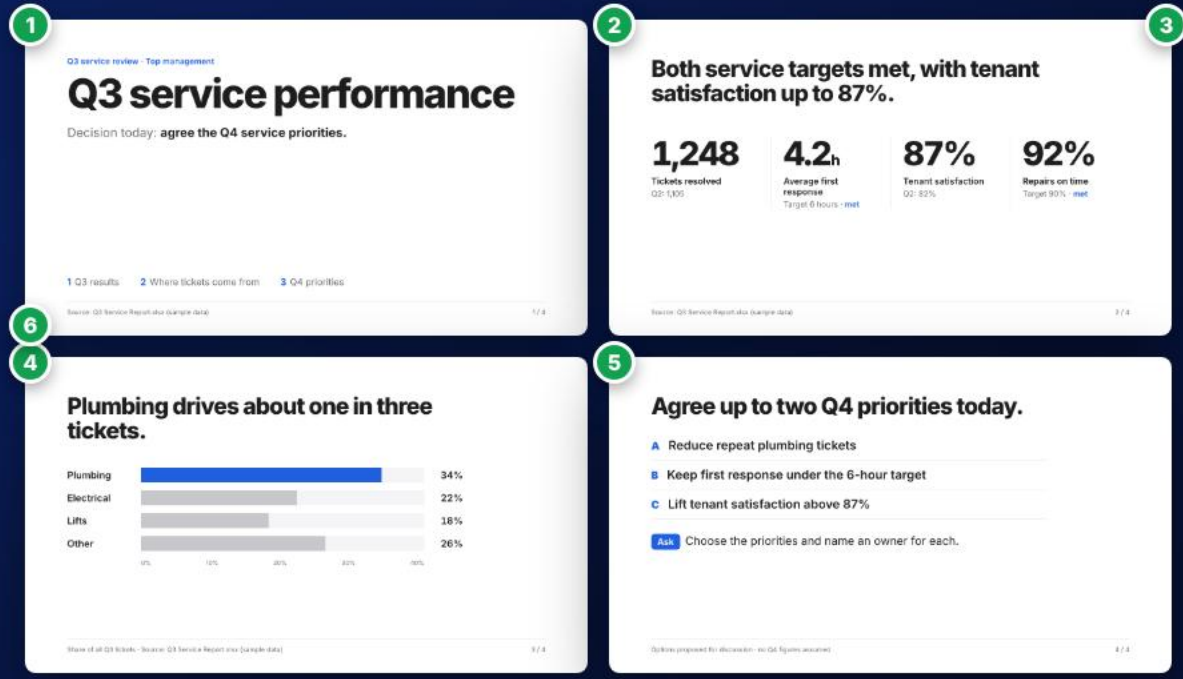

```
"Make a presentation about our Q3 performance."
```

1. Decorative title slide with no message
2. Wall of text: five long sentences and no facts
3. Invented figures (revenue +35%, 98%). None were given
4. 3D bar chart with no labels or axis
5. Ends with "Thank you". No decision asked

✓ With the Prompt Vault

Role Top Management Consultant · **Audience** Top Management · **Tone** Executive · **Style** Minimalism · **4 slides** · **Goal** agree Q4 priorities · **Data** Q3 Service Report.xlsx · **+ Testing & Quality**

1. The decision needed is stated up front
2. Each headline is the key message
3. Real figures from your file, with targets
4. One honest chart on a true 0–40% scale
5. Ends with a clear ask and owners
6. Source and slide number on every slide

Illustrative example with sample data. Left: typical problems when a vague prompt gives the AI nothing to work with. Right: built by following the full Prompt Vault prompt (Slides › Create Slides).

Same request. Two prompts.

Dashboard: Q3 service performance for the monthly management meeting

AI Sandbox Prompt Vault

✕ Without a proper prompt

```
"Create a dashboard for our property management."
```

1. Decorative title, no date range or source
2. 12 tiles of invented metrics: revenue, NPS, occupancy
3. A gauge that says "GREAT!" but measures nothing
4. Trend lines with no axes, labels or legend
5. 3D pie chart with 7 unlabelled slices

✓ With the Prompt Vault

Role BI Dashboard Designer · **Audience** Monthly Meeting · **Tone** Data-driven · **Colours** AI Sandbox Blue · **Desktop 16:9** · **Data** Q3 Service Report.xlsx (monthly figures) · **+ Testing & Quality**

1. Title, period, meeting and data source up front
2. KPIs against targets; status only where a target exists
3. Each chart answers one question
4. Target line shown, so "on target" is visible
5. Honest bar chart on a true 0–40% scale
6. Your colour scheme; sample data clearly labelled

Illustrative example with sample data. Left: typical problems when a vague prompt gives the AI nothing to work with. Right: built by following the full Prompt Vault prompt (Dashboard › Create Dashboard).
